## Looking Over Power Sites

From all indications it is only a question of time until a pulp mill will be built in this district. And to bear up this fact better than anything is the fact that the government has sent special men to the country to investigate the possibilities and prospects of the various water power sites available for that purpose.

The Forest Service boat Tahn was in port last Friday and on board her are special service men H. E. Surface, Leonard Lundgren, and Mr. Nelson. Mr. Surface is a special wood expert from the government laboratories at Madison, Wis., while Mr. Lundgren is special power engineer, making a report of the various power sites in the Tongass National Forest. Forest Supervisor Weigle is also aboard the Tahn.

These men have been picked by the government to come to Alaska with the definite idea of getting data on the various sites for pulp and paper mills. From Wrangell the party visited Crittenden and Mill Creek, and all concerned are very enthusiastic over the prospects of both places.

Wrangell is certainly very well located for this line of industry as no place in Southeastern Alaska has more available cottonwood than is near the mouth of the Stik-

ine and adjoining country. A good pulp and paper mill will mean lots for Wrangell and we as Wrangellites should not fail when the time comes to boost our resources. We have them, lets, let others know of them.

## First Lift On Curacao

Manager Bissett of the Vancouver Salvage Company came in from Warm Chuck, last Tuesday and proceeded south on the Spokane. Mr. Bissett states that the work of raising the Curacao is progressing in fine shape, and that everything is in readiness for the first lift which will be given the sunken vessel on the big tide July 24th. The first lift will place the vessel some 30 feet further up on the bank where she will be repaired to get her in shape for the trip south.

## Alaska To Have Exhibit At Fair

Washington, July 8.—The senate adopted today an amendment to the sundry civil bill to provide \$50,000 for an Alaskan exhibit at the San Francisco exposition under the supervision of the federal commission.

## Fox Farming At Telegraph

G. W. Morris one of the passengers down on the Karen from Telegraph last Tuesday has furnished us with a very interesting story of the newest industry of the Casiar Country that of raising Foxes for the market. For some time past Mr. Morris has been in the employ of the Casiar Silver and Black Fox Company owned by Hyland, Viety and Pendergast.

Mr. Morris stated that there are two companies now raising fox at Telegraph, the Casiar Silver and Black Fox Company and the Vance and Gillespy Fox Company. The first company has 52 cross and silver fox now and the other company have some 20 of the same variety. The farm of the Casiar Company is situated on Deep Creek about three miles below Telegraph and the Vance and Gillespy Company have their farm about a mile from Telegraph on the Atlin Trail.

When asked as to how the fox are kept and cared for Mr. Morris stated that they are kept in small pens inside of a large enclosure made of heavy wire netting, the main enclosure covers several acres of ground, the netting is first set about four feet in the ground and extends twelve feet above

the ground and at the top of the net is built a slanting lap-over of about two feet to keep the fox from climbing over the wire. This is only the outside fence and inside of this is built a bunch of small pens into which the foxes are placed in pairs.

Fox farming is getting to be an important industry in the Casiar country and all the fox on both farms are the real Casiar fox, as they were all caught in the country and the hunting of the small pups is a very profitable occupation to those fortunate enough to find them. Mr. Morris states that he has just returned from a hunting expedition for the wild pups, and that he captured seven small ones from their native home on Level Mountain which were turned over to the Casiar Company for the consideration of \$1100. The fox captured were about five weeks old, three silver and four cross. In capturing the pups Mr. Morris and partner watched the den for some three hours waiting for the pups to go into their den, there were eight pups in the family but one of them would not go in the hole so got away, after the pups were finally caught in the den they were dug out and placed in cages made to receive them. According to the law of Canada those hunting or raising fox must have a permit and the live fox of the country can not be taken out so it necessitates the raising of them at Telegraph but after one set of pups is raised on the farm the pups may be disposed of anyplace. Mr. Morris predicts a big thing for fox farms of Telegraph as the foxes are obtained at a materially small cost and they rapidly multiply, and while the industry is a new one it is also an assured one. Mr. Morris is on his way to the Cook Inlet country on a prospecting trip and will take the first boat leaving for the Westward.

## NOTICE

Notice is hereby given that the primary election for the purpose of electing three delegates to the Democratic Territorial Convention to be held at Skagway, Alaska, August 3rd, 1914. Said primary election will be held at the Town Hall, Wrangell, Alaska, July 25th at 7:30 P. M.

By order of the Committee.  
N. J. Svindseth,  
E. P. Lynch,  
H. J. Wallace.

## Father Duncan Is In Bad

It is rumored in official circles that Father Duncan of Metlakatla is getting in bad with the department of the interior, and that he has outlived his usefulness. Many people hold that since the money

procured for the industries was obtained from benevolently disposed individuals in the east for the benefit of the natives, it ought to be turned over to the natives, and steps may yet be taken, it is rumored, by the officials with this end in view.—Sunday Morning Post.

## Fast Trip To Telegraph

The Karen, Capt. Johansen, arrived down from Telegraph last Tuesday evening after making one of the fastest gas boat trips ever made on the river. The Karen left Wrangell at 1 P. M. last Thursday and arrived in Telegraph Sunday at 8 P. M. and made the return trip in ten hours and thirty minutes running time. Capt. Johansen says that the people at Telegraph were getting anxious to see a boat as it has been some time since any boat has been able to reach Telegraph. The Karen took two passengers on the trip up and about a ton of freight. And on the return trip she brought down two passengers, J. W. Bertram and G. W. Morris.

The Karen will make several trips up the river as while in Telegraph this last trip Capt. Johansen entered into a contract with the Hudson Bay Company to handle all freight that was landed here this fall for them.

## Mining Brighter In Casiar

The mining industries of the Casiar Country are looking very good according to parties that came down on the Karen last Tuesday from Telegraph Creek. Several properties on McDames Creek are being worked as they never have before and the prospects that there will be several dredges in there working before the summer is over makes it look very encouraging. The various camps of the Casiar are like those of any other camp. The prospects have been worked as far as possible by hand and now it remains for the dredges to enter the country and take out the largest share of the values. More big companies are taking hold of the ground this season than ever before, on the last trip of the Karen was a mining engineer Mr. H. C. McNought, who will make a survey of several prospects in the interest of several big companies. Taking it all as it comes the prospects for the Casiar are getting brighter every day, and it is only a question of time until it will be a great gold producing section.

Because he had undervalued his farm to the assessor, O. C. Stanson of Maple Creek, who sued the railroad for damages to his land, received only \$700 an acre, whereas he sued for \$5000.

### Good Story Of Alaska

We want to make special mention this week of the See America First Magazine for the special reason that it contains one of the best write-ups of Alaska that has been our pleasure to read for some time. The See America First is the official publication of the Festival Association of the Pacific Coast. The last number is a special Alaska Development Number, and the story of Alaska entitled, "On the Threshold of Greatness" written by the Editor Mr. A. L. Sommers contains many facts brought out in a clear and understanding way, and contains 67 clear pictures of Alaskan towns and other points of interest. The story is very interesting and one that can be read with interest by every Alaskan. There is also in another section of the publication a very interesting article appears by C. C. Geogeson, in charge of the Agricultural Experiment Stations of Alaska, entitled "The Agricultural Capacity of Alaska". In corporation with the article are some 20 cuts showing the different kinds of vegetables and grain that can be raised in Alaska and will help much to do away with the idea held by some people in the states that Alaska is an ice box and that nothing can be raised here. The paper from cover to cover is a good word for Alaska, and we can not to highly compliment such work as it all tends to set Alaska on a better and truer footing with the public of the states who have for so long been led to believe that Alaska is a land of eternal ice and snow. And if more of the articles written on Alaska were along these lines it would materially help the advancement of a country that is truly coming into its own.

"The Dream" is the proper place to go when in Ketchikan.

All Roads Lead To THE RINK

Mr. William Lewis the manager of the Rink Theater should be given a lot of credit for the way that he is trying to serve the theater going public with the best pictures on the market. Mr. Lewis has just entered into a contract with one of the largest feature picture companies in the world to send him some of their best features, the first of them will be shown in a few days Les Miserables in nine reels, and will be followed in a fortnight with "The Sea Wolf" the famous story by Jack London in eight reels of beautiful pictures. These pictures are the very latest and are at present being shown to large crowds in the large cities of the states. The price that Mr. Lewis has to pay for these features has forced upon him the raise in price, but this class of photostory has never shown for less anyplace and you need not fear but that you will get full value for your money if you take in these shows.

In another section of this issue is a notice of a Primary Election to be held at the Town Hall, Sat. July 25, 1914 for the purpose of electing three delegates to the Democratic Territorial Convention.

## LOCAL BRIEFS

The Dream and the Rink set The Pace.

Mrs. F. Leonard was a passenger south on the steamer Al-ki to Seattle.

The City Store is renewing the walk from the store to their warehouse.

N. J. Svindseth will make the round trip on the Karen this trip to Telegraph.

Seven stowaways were put off the Northwestern when she landed going south last trip.

Wm. Lewis, with the Antelope was in from Point Warde Sunday. He reports the fish run very slow in that vicinity.

When in Ketchikan spend an evening at the "The Dream," the house that sets the PACE. All others try to copy.

The Alaska Chief of the Shakan cannery, was in port last Monday. Capt. Duffey reports the fish as rather scarce on the West Coast.

There will be some show at the Rink next Saturday night. They will show the greatest feature that ever came to Alaska. You don't want to miss this.

Mrs. Dolly Walton and children left on one of the last boats for Juneau where they will make their future home.

C. J. Stanley, the man that puts out the Juan de Fuca cigars, is a round trip passenger on the Princess Alice, passing through north last Tuesday morning.

The Matheson Department Store is receiving a new coat of paint this week, which improves the appearance of the building very much. Tate and Anderson are applying the brush.

L. C. Patenaude, N. M. Tate, H. Gartley and Tony Anderson made a trip to Pats Creek fishing last Sunday. We are not going to say how many fish they caught because we did not see any of them.

Miss Belle Hood and Miss Gusie Leonard are spending their vacation on the West Coast visiting at the home of Mr. and Mrs. Arthur Leonard at Warm Chuk.

The J. B. Stetson, of the Portland Steamship Company arrived up from the south last Tuesday night. She had considerable freight and three passengers for this port.

Mr. and Mrs. Wm. Walgren and daughter Agnes of Astoria Ore. arrived up from the south on the last Portland boat and are spending a few weeks at the home of Mr. and Mrs. Thomas Dalgity. Mr. Walgren is very much pleased with the outlook of our city and is thinking of locating here permanently.

Ralph Hall has accepted a position on the Stikine Trail and left for the river last week. The camp has been moved some two miles further up the river and a crew of twelve men are at work there at present.

Mrs. Lena Milks, of Portland, Ore. is registered at the Wrangell Hotel. Mrs. Milks is on her way to Petersburg where she will take charge of the hotel at that place and is spending a few days visiting with old friends in Wrangell.

The Berg Boys are in town this week from their claims on the mainland down the back channel. They report that the prospects are looking good and expect to make a good showing before the season is over. When they came in this trip they arrived down to the beach to find their gas boat swamped and as they were unable to run it in they started to row the boat to town, but were over taken by a gas boat and was given a tow.

### National Forest Timber For Sale

Sealed bids will be received by the Forest Supervisor, Ketchikan, Alaska, up to and including August 17, 1914, for approximately 1,750,000 feet B. M. of Sitka spruce sawtimber and 150,000 feet B. M. of hemlock sawtimber upon a designated area including a tract 2000 feet wide lying along the north shore of Three Mile Arm, Kuiu Island and extending from a point on the shore 15 chains south of the large stream entering the western extremity of the Arm, thence along the north shore to a point 2 1/2 miles east of the western extremity of the Arm, Tongass National Forest, Alaska. No bid of less than \$1.00 per M feet for Sitka spruce and \$2.50 per M feet for hemlock will be considered. Deposit with bid \$500. The right to reject any and all bids reserved. Before bids are submitted full information concerning the timber, the conditions of sale, and the submission of bids should be obtained from the Forest Supervisor, Ketchikan, Alaska.

### Notice of Final Settlement

In the matter of the estate of Grant Henry, Deceased,

Notice is hereby given that I, L. C. Patenaude, the duly appointed Administrator of the above named estate have this day filed with the Probate Court at Wrangell, Alaska, my final account and report, and the Court has fixed August the 10th as the day for the final hearing on said account.

All persons are cited to appear at the Court House at Wrangell on said date at the Hour of 2 o'clock, P. M. and file their objections, if any to said account.

Dated this 9th day of June, 1914

According to a foreign periodical, not only is paper a suitable material for the manufacture of wheels for railway wagons, but it may be used for the construction of pneumatic tires, possessing the strength of steel and the "elasticity" of rubber. It is absolutely noiseless, resistant to wet and oil and cheaper than rubber tires.

## Grand Staircase, Festive Court, Panama-Pacific Exposition.

THE grand staircase in the East or Festive Court, Panama-Pacific exposition, will divide the central group of exposition palaces from north to south. This court, representing the finest type of Spanish-Moorish architecture, is designed for pageantry upon a stupendous scale. Here pageants surpassing the durbars will be enacted, and here the nations upon the shores of the Pacific will meet in a series of oriental displays. Here the choral societies of America and Europe will meet in a song festival in 1915. The great tower of the court will contain an organ with echo organs in the smaller towers. From the huge staircase and from the roof gardens overlooking the court spectators will be enabled to see enacted a surpassing series of pageants.

## Big Dance At Wrangell Hotel

Manager J. G. Grant of the  
Wrangell Hotel gave a great dance  
last Friday evening in the sample  
room of the Hotel, the occasion  
being the lay-over of the Spokane  
with some 150 tourists. The dance  
was attended by several town  
people and a good time was had by  
every one. Mrs. F. L. Clarke  
and Mail-Clerk Andrews of the  
Spokane furnished the music for  
the forepart of the evening and  
after 10:30 was accompanied by  
Prof. Kronmier. The dancers  
kept the floor hot until nearly  
midnight, and left to catch the  
boat with three big cheers for Mr.  
Grant.

## LOBSTER AND BUTTERFLY.

Widely Apart in Appearance, They Are  
Close Relatives.

You would hardly think it to look at  
them, yet the lobster is a relative of  
the butterfly. The kinship is not mere-  
ly that of two members of the animal  
kingdom. The lobster and the butter-  
fly are actually in one and the same  
great group of the kingdom, like the  
clam and the snail or the whale and  
the giraffe, whose spheres of activity  
are so widely separated.

It is simply, as Darwin pointed out  
in the case of all other creatures a  
great many years ago, that the lobster  
and its friends, the crab, the prawn  
and the shrimp, chose one method of  
life, while the butterfly and its set  
chose another.

So the first group developed charac-  
teristics suited to the conditions in  
which it lived, including as one of the  
most important, as its members do  
not move rapidly, a coat of armor to  
protect them from their innumerable  
enemies, while the butterflies and the  
great host of other winged insects  
shed every bit of superfluous weight,  
trusting to swiftness to carry them out  
of danger and to protective coloring to

Red Rice.

In Senegal red rice grows wild. The  
fields in which it grows are inundated  
regularly by the Senegal or by its af-  
fluents, and in measure as the tide rises  
the rice plant rises above the flood.  
The grain is very red and very dry and  
hard. It swells in the water and as it  
swells loses some of its rich color. It  
is very nourishing and requires no cul-  
tivation.

## Big Picture Coming To The Rink

"Les Miserables" the biggest  
thing in the Photoplay line ever  
shown in our city will be shown  
soon at the Rink. We have made  
the boast that the price at the  
Rink would never raise but it was  
either play this Massive Produc-  
tion at 50c or let it go by our city  
with out being shown, so we are  
taking a chance on this class of  
production. This same picture  
drew a top price of 75c in Seattle  
but a short time ago. This won-  
derful picture, in nine reels, was  
made by the French Pathe Co.  
under the new name of Electric.  
It is released by the famous play-  
ers. A synopsis will make it  
plain to those that have never read  
the book.

## TOURIST'S GUIDE

PUBLISHED BY ST. PHILIP'S GYMNASIUM  
WRANGELL, ALASKA

Alaska Views both plain and tin-  
ted, for sale for the benefit of St.  
Philip's Church and Gymnasium.  
For sale both at the Church Booth  
(near Frog Totem) and at the  
Wrangell Drug Store.

Free Magic Lantern Entertain-  
ment (100 colored Alaska views)  
With Lecture at St. Philip's Church  
when your boat stops long enough  
evenings.

The lecture at the poles begins  
at the Kicksette Totem. The face  
at the top represents the canyon of  
the Stikine River where the clan  
camped for a few generations. Be-  
low the old raven, the Creator,  
talking to the young Raven that  
made man. Below is the Beaver,  
the coat-of-arms of the father's  
side, and the Frog, of the mothers  
side.

Beaver Totem—The first totem  
to the left after reaching the power  
house. At the top, the Beaver.  
Below, a man fighting with a  
devil-fish, Ductut rending the sea  
lions and Kyak sparing a monster  
with the sinew from a bird.

Raven Totem—(next totem fur-  
ther on.) At the top is the Raven  
Creator. Below, grandson that  
made man, the daughter of the  
Creator and Hi-ye-Shoon-a-gu, the  
Indian Atlas.

Old Shakes Grave—(still further  
on and across a bridge.) The cor-  
ner posts are the Black-fish  
Totems.

Kada-shan Totems—(return to  
sawmill.) Right hand totem, at  
the top is the Creator. Below the  
grandson that made man, La-Kig-  
ina, the murderer of men and the  
Thunder Bird. Left hand totem.  
At the top, the Eagle, (Below) the  
Ko-na-ka-det, the Crane and the  
Ko-na-ka-det.

The party then returns to the  
power house and goes across to  
where the Russian fort stood to  
visit Chief Shakes' house. The  
Shakes' Totems. Right hand to-  
tems, the bear that climbed the  
mountain at the time of the flood  
and saved the people. Left hand  
totem, the Ko-na-ka-det, the mon-  
ster of the sea that brings good  
luck. Behind Shakes' house are  
two totems, the Standing Bear and  
Ductut rending the sea lions.

The Gymnasium takes this op-  
portunity to announce that the  
second edition of "Totem Lore" is  
ready. It has double the material  
of the old edition, it has 28 illus-  
trations and is sold at a price less  
than the cost of cards. The pro-  
ceeds are for the benefit of the  
Church and Gymnasium.

## Some Brief Epitaphs.

The following are among the brief  
and curious epitaphs seen in European  
cemeteries: At Worcester, England,  
the slab erected over a departed auc-  
tioneer is inscribed with a single word,  
"Gone." In Sussex the initials and date  
of the death of the deceased are fol-  
lowed by two words, "He was." On  
the monument of Charles the Great  
of Germany the brief inscription is "Ca-  
ralo Magno." The most remarkable is  
at Cane Hill cemetery, Belfast, where  
the inscription says, "Left till called  
for."

The National Pastime.  
It is an ancient manner.  
He stoppeth one of three  
And holds him with a skilful hand.  
"Have you a match?" quoth he.

The shades of night were falling fast  
When through an Alpine village passed  
A youth who bore mid snow and ice  
A banner with a strange device—  
"Get a match?"

Electric Butchering.  
Reporting the electrocution experi-  
ments at the abattoir in Nantes,  
France, Dr. S. Leduc states that a  
large number of oxen, bulls, cows,  
horses, hogs, calves, sheep and dogs  
have been slaughtered by this new  
method, which seems to have proved  
very satisfactory. The current was of  
110 volts with 100 alternations per  
second.
